TECHNOLOGY TRANSFER AWARD

By Javad Hosseini, D-8 TTEN Secretariat

One of the services, as an incentive for business in member states, provided by D-8 TTEN Secretariat is an annual Award that is objected to extend the relations of businesses in all the fields of S&T in D-8 Member states and OIC member states. Technology Transfer Award of TTEN with the support of Pardis Technology Park as the Secretariat of the Network among D-8 Member States initiated its work from 2015 and could find its best candidates in its first round in 2016. The procedure of detecting the best technology transfer contracts signed in each year is going on by the Secretariat.

Based on its statute, nominated contracts should have been signed during the Award year and the contract parties must be among D-8 and OIC member states.

Now it is the chance for eligible contracts signed in 2017, to nominate their candidates to be introduced to all the technology activists and benefit from facilities designed this year. Winner contracts parties will find followings as they are selected as the best technology transfer contract:

- ◆ Award Certificate and Statue for both the Technology Provider and Technology Recipient of the Best Technology Transfer Case (signed by Secretary General of D-8 Organization & Secretary of D-8 TTEN);
- ◆ Facilitating the winner companies to participate in one of technology oriented events (covering up to 5000 USD of expenses);
- ◆ Facilitating the winner companies with free attendance in one of D-8 TTEN events by providing ticket fare and hotel;
- ◆ Proposing the signed contract as a project to be financed by one of donating entities in Islamic countries such as Islamic Development Bank, etc.

D-8 TTEN Secretariat Event

SECOND BUSINESS TECHNOLOGY MEETING**2nd Business Technology Meeting (BTM) in Tehran hosted by Iran National Focal Point**

Iran International Innovation and Technology Exhibition (INOTEX2018) hosted D-8 TTEN Business Technology Meeting in the field of Renewable Energy in Tehran on July 5, 2018.

Iran National Technomart Center (INTC) organized the second BTM on the sideline of INOTEX2018. INTC informed about necessity for Renewable Energy as the subject of 2nd BTM. The subject of the 2nd BTM was circulated among members and was initially estimated by TTEN Secretariat to be a productive framework for businesses in this field. A panel discussion and a keynote speech accompanied the presentation of businesses in this Meeting.

During the big event of INOTEX2018 in Tehran, 2nd BTM was opened at 10:45 AM by the attendance of representatives from Iran, Nigeria and Malaysia. The statement of the Iran National Focal Point, Mr. Mohsen Aliakbarian followed by the statement of D-8 Secretary General read by Mr. Amino Nasir, the Director 1 in D-8 Secretariat opened the program.

Keynote speech of Dr. Mahmoudi, consultant in Iran Renewable Energy Organization, was the first program after the opening speakers. He shared his experiences of more than 25 years activities in solar energy and other related fields in Renewable Energy in Iran and Germany.

Panel discussion, moderated by Iran Energy Technology Development Center discussing the activities done to develop the startups and SMEs in the field of Renewable Energy by related entities was then done. were introduced the role of startups and SMEs to increase the technology transfer of Renewable Energy.

In the following, companies from Iran and Nigeria presented their state of works and products to the attendees and B2Bs were organized.

REVIEW OVER TTEN ACTIVITIES IN 2018

Sprawling the touch of TTEN with tech companies in member states is a mission for the Network to approach the vision of technology transfer and exchange of hi-tech products. Registration of companies and their products and technologies is provided in website at: **www.d8tten.org**.

To develop the Businesses in all the fields of S&T among D-8 Member States, was designed the Business Technology Meetings that is the framework of TTEN to form B2B events. In another view point, TTEN gets the businesses to present to industries to a bigger market.

Once looking out for extending activities of the Network, innovation world is an enthusiastic filed of cooperation. Developing the startups that are endeavoring on a new business idea enforces TTEN to design a framework for eliminating one of the major obstacles that is funding or investment.

In order to provide a platform for fundraising in international arena, exchange experiences, create a networking atmosphere for VCs, investors and entrepreneurs and strengthening the innovation ecosystem of States

Technology Investment Meeting is launched.

Find more at: **tim.d8tten.org**

TTEN inaugurated the services with its website that is showroom for companies, technologies and products. Upgrading the knowledge of member states with regard to technology transfer determined the Secretariat to organize technology transfer workshops. TTEN. Facilitating companies to join international exhibitions in states is another defined task of the Network. In addition, proposing the financing of technology transfer contracts through one of the donating entities is an initiative that is put in the tasks of Secretariat in this regard.

Technology Cooperation is the objective of TTEN among D-8 Member States and all the activities, events and services the network is providing is to reach this.

The Cooperation is primarily created with the representatives of States with the scope of S&T as their major activity. The representatives are called National Focal Points and in all the member states TTEN is interrelated with an organization that is undertaking the responsibility of technology development and are the partners od TTEN.
