

TURKEY

Dear Ladies and gentlemen,

My name is Yilmaz Asim Ozalp. I work as an expert at the Undersecretariat of Maritime Affairs of the Republic of Turkey. First of all we would like to thank for the warm welcome at the airport. Also we would like to thank the Nigerian maritime units and the Secretariat of D-8 who put the meeting together.

We have prepared a web site for D-8. We have sent a series of questions to participating countries with the help of D-8 Secretariat, the issues related to maritime. However, no country has replied this questionnaire with a clear answer. We will send this questionnaire again, and we would like to publish these questions and answers according to the answers we receive from you.

We are ready for any kind of cooperation and support with shipping, ship construction, port management issues.

Thank You
