

SEED IMPORT & EXPORT REQUIREMENTS AND QUARANTINE MEASUREMENTS

Emine Melike AKTEPE

*Agriculture Engineer
and Inspector in
Quarantine
Directorate of Istanbul*

- What is Seed?
- What is Plant Quarantine?
- Directorates & Labs in Turkey
- Seed Imports
 - Seed Requirements
 - Required Documents
 - Controls & Analysis
 - Phytosanitary Certificate
- Seed Exports
 - Seed Requirements
 - Required Documents

WHAT IS SEED?

- A ripened plant ovule containing an embryo
- A propagative part of a plant
- A source or beginning of life; a germ etc..

But on the other hand;

- Seed is source of a disease,
- Disease is the source a big epidemi,
- A big epidemi is the source of economic downturn of a town, of a city and furthermore a country.

Therefore Agricultural Quarantine Measures have great importance for every country.

WHAT IS PLANT QUARANTINE?

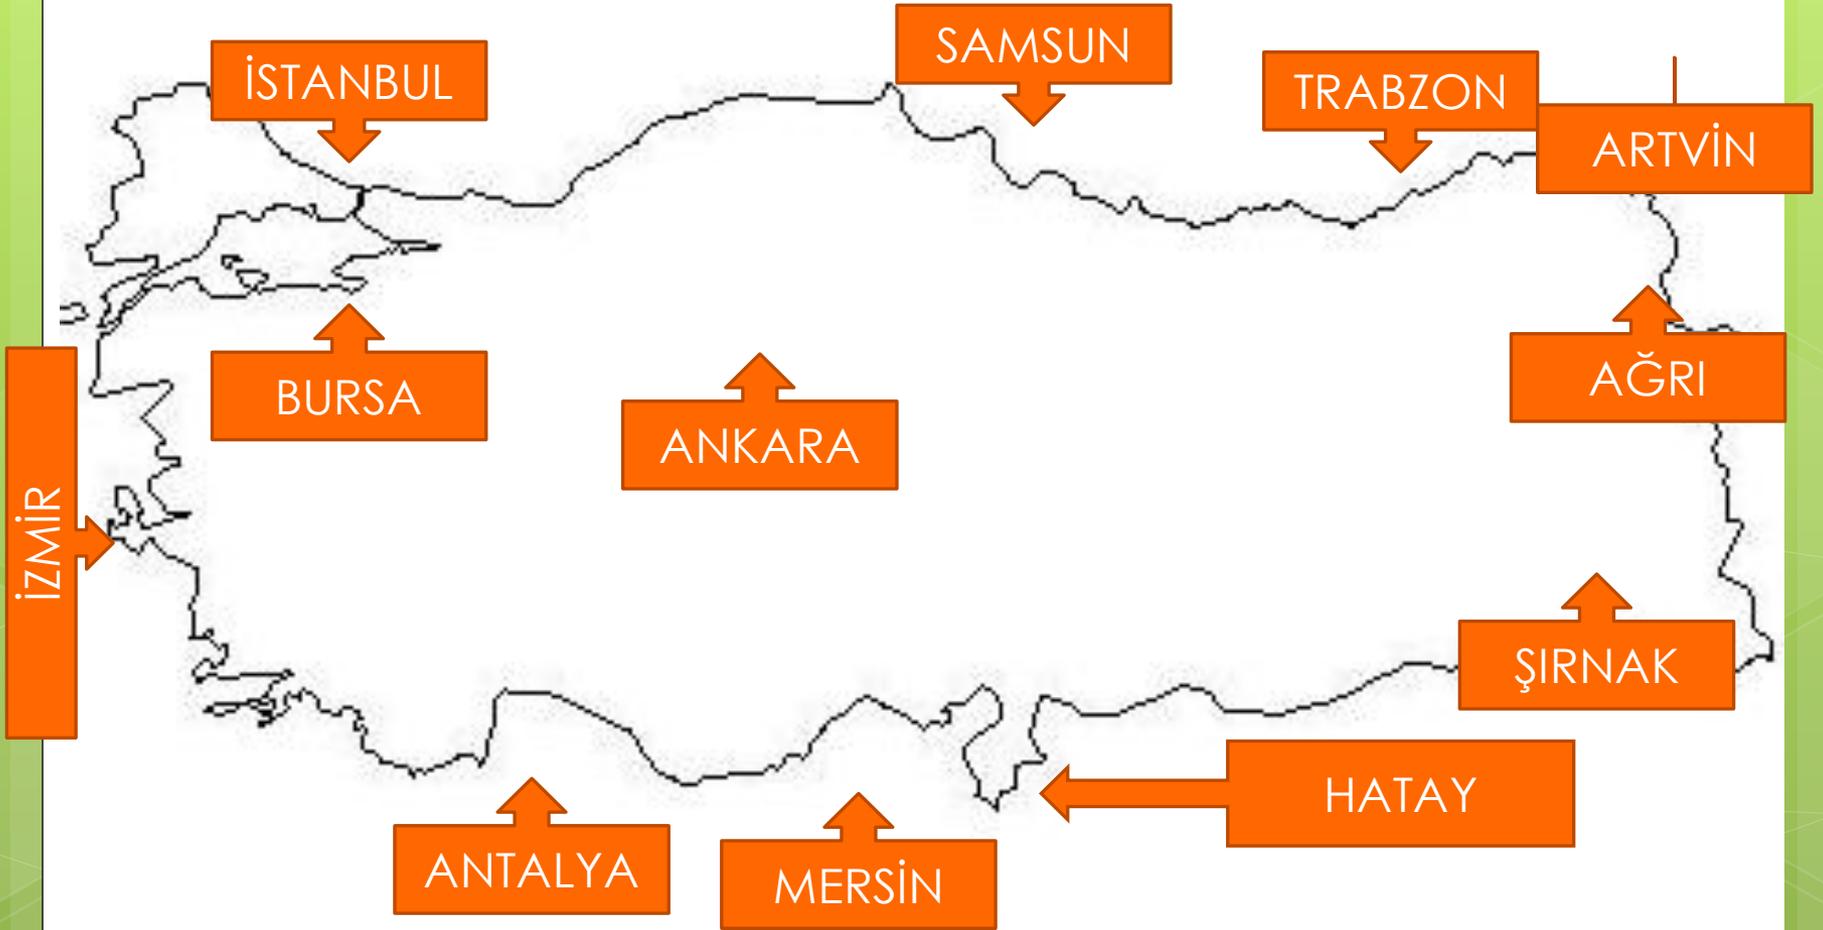

Plant Quarantine is:

control of plants , products and other substances in order to prevent entry of dangerous pests into the country and spread around.

Agricultural Quarantine measures are taken by Quarantine Directorates in Turkey.

There are 12 Quarantine Directorates in Turkey.

QUARANTINE DIRECTORATES

QUARANTINE LABORATORIES

İSTANBUL

İZMİR

ANTALYA

MERSİN

Quarantine analysis can be done at 4 Quarantine Directorates in Turkey

MEANING OF QUARANTINE

The name of “Quarantine” comes from an Italian word of “Queranta”. This word means *forty*, which is the number of days ships were required to be isolated before passengers and crew could go ashore during the Black Death plague epidemic.

SEED IMPORTS

- 1) Pre -permit
- 2) Seed Requirements
- 3) The Public Authorities
- 4) Required Documents
- 5) Accomplishment of seed import.

PRE-PERMIT

- Pre-permit is the first step to be able to import seed. Without pre-permit process can not start. Pre-permit is given by Provincial Directorates of Ministry. Pre-permit can be given for the following institutions and organizations;
- R&D (Research and Development) organizations and international organizations like CIMMYT (International Maize and Wheat Improvement Center), ICARDA (Science for Better Livelihoods in Dry Areas), etc. are able to import seed **for only testing and demonstration purposes.**
- Public Agricultural Research Institutions, certification bodies and universities are only permitted to import material for **research, development, test, trial or demonstration purposes for the supply of seed and genbanks.**
- Organizations that provide import seeds to their contracted farmers for the production of the agricultural industry in order to obtain vegetable products for export.

SEED REQUIREMENTS

- 1) Varieties of seeds that will be imported for commercial or for seed production must have been registered under the relevant legislation or according to Seed Law in our country. (REGISTRATION)
- 2) Besides the Hybrid seeds, all Seeds to be imported for production/propagation purpose must be at least in original/basic class to import.
- 3) Genetically modified organism (GMO) seeds are not allowed to import.
- 4) If the imported seeds are treated, the treatment formula must be registered in our country.
- 5) The imported seeds must comply with national standards.
- 6) It is required to provide the *OECD* (Organization for Economic Cooperation and Development) or *ISTA* (International Seed Testing Association) seed certificate for importation of seeds.

- Food, Agriculture and Livestock Ministry
- BÜGEM: General Directorate of Plant Production
- Research Organisations
- Agricultural Quarantine Directorates
- The Provincial Directorates of the Ministry Delegated authority. *(Eight Provincial Directorates are authorised to give pre -permit to seed import. These are: İstanbul, İzmir, Bursa, Adana, Ankara, Antalya, Mersin, Yalova)*

REQUIRED DOCUMENTS

Documents that are issued by Provincial Directorates of Ministry

Applications for import pre-permits are made to Delegated Provincial Directorate of Ministry and Control Documents should be signed by Provincial Director of Ministry.

Pre-permits for imports-for-export are given by BÜGEM.

C- 5553 sayılı Tohumculuk Kanunu hükümlerine uygundur. D- 1380 sayılı Su Ürünleri Kanunu hükümlerine uygundur. E- 5199 sayılı Hayvanları Koruma Kanunu hükümlerine uygundur.	
(1) GTİP tespiti Gıda, Tarım ve Hayvancılık Bakanlığı'nın sorumluluğunda değildir. (2) Proforma faturada tek isim altında birden fazla madde varsa bunların orijinal isimleri ayrı ayrı belirtilecektir. (3) Canlı su ürünleri ithalatında belirtilecektir. (4) Veteriner tıbbi ürünlerin, bu ürünlerin veya başlangıç maddelerinin üretiminde kullanılan maddelerin ithalatında belirtilecektir.	
Taraflarımızca düzenlenen işbu formdaki bilgilerin doğru ve eksiksiz olduğunu ve ithalatı Gıda, Tarım ve Hayvancılık Bakanlığı'nın Kontrolüne Tabi Ürünlerin İthalat Denetimi Tebliği (Ürün Güvenliği ve Denetimi: 2014/5) hükümlerine uygun olarak yapacağımızı taahhüt ederiz. Firma Kaşesi Yetkilinin Adı&Soysadı İmza	
İlgili Tebliğ uyarınca yapılan incelemede, işbu Kontrol Belgesi kapsamındaki ürünün, insan sağlığı ve güvenliği ile hayvan ve bitki varlığı ve sağlığı yönünden gümrük aşamasında yapılacak denetimler için uygun bulunması halinde ithali uygun görülmüştür.	
İstanbul İl Gıda, Tarım ve Hayvancılık Müdürlüğüne 06.11.2014 Tarih ve 223687 sayılı yazıyla ihlalata ilişkin her türlü belge ve belge kayıtlarıyla ihthalatı uygun görülmüştür.	

REQUIRED DOCUMENTS

Documents that are required by Quarantine Directorates

MAIN DOCUMENTS:

- Application Form
- Original Phytosanitary Certificate
- Original Import Control Documents
- Import preliminary permit letter

ADDITIONAL DOCUMENTS

- Invoice (*Photocopy*)
- Loading Contract (*Photocopy*)
- Transportation Document. (*CMR, Bill of lading..*) (*Photocopy*)

If any of these documents are missing, the application will not be evaluated!

- ❑ This document proves that the plants or plant products have been officially inspected in the country of origin, and the results are in compliance with the phytosanitary requirements intended to import country.
- ❑ The Phytosanitary Certificate is drawn up by exporting country officers.
- ❑ 1 original and 2 copies are needed, which prepared according to ISPM-12 (International Standards for Phytosanitary Measures) . The original and one of the copies are given to the exporter. One copy is kept in the Directorate.

EPPO activities on plant quarantine

One of the aims of EPPO is to help its member countries to prevent entry or spread of dangerous pests (plant quarantine). The Organization has therefore been given the task of identifying pests which may present a risk, and of making proposals on the phytosanitary measures which can be taken. In recent years, the identification of risk has been formalized, because transparent justifications of phytosanitary measures are required and phytosanitary measures have to be commensurate with the risk. Several EPPO Standards on Pest Risk Analysis (PRA) are now available. To perform these activities, much information on pests presenting a risk to the EPPO region is required and has been collected by the Organization. Most of it (**data sheets, maps, diagnostic protocols and pictures**) can be retrieved here.

Special Alert

First report of *Xylella fastidiosa* in the EPPO region

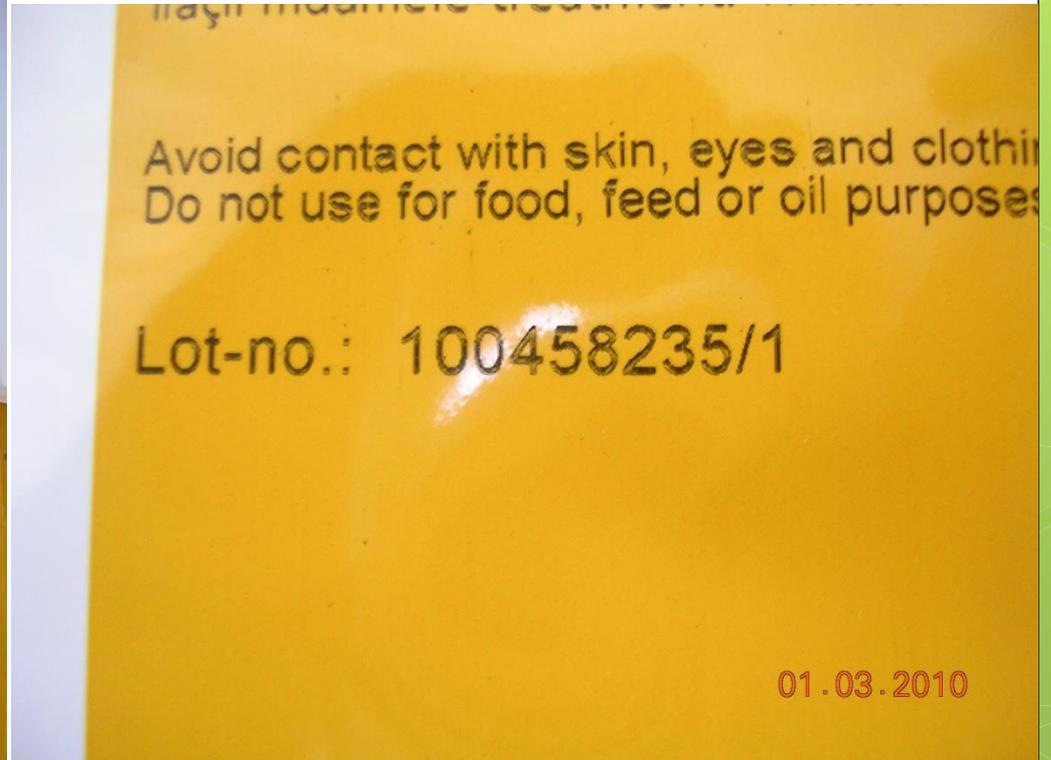

In mid-October 2013, the presence of *Xylella fastidiosa* was detected in olive trees in Southern Italy, in association with other fungal pathogens. Phytosanitary action is being taken to stop the spread.

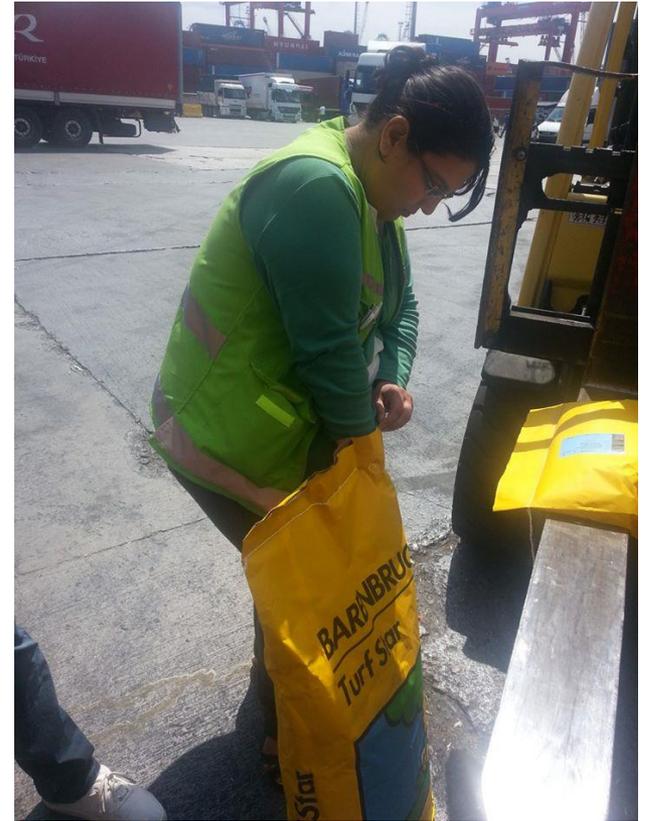

Import control shall be carried out at three stages by inspectors who are trained on import-export process of country and work in Quarantine Directorates

- 1) The documentary check of the shipment or batch (*It is a control to see whether the documents required to be enclosed to the application letter in a complete.*)
- 2) Identity check (*It is a control to see whether the documents and application letter is in conformity with the seed intended to be imported.)*
- 3) Plant health check (*Inspector takes samples from the seed for laboratory analyses. (Phytosanitary analysis, GMO (genetically modified organisms) analysis.)*)

Identity Check

Identity Check and Sampling

Identity Check and Sampling

Laboratory Analysis differs depending on seed type:

- **Zea Mays (Corn):** Phytosanitary and GMO analysis
- **Triticum (Wheat):** Phytosanitary and GMO analysis
- **Oryza spp.(Rice):** Phytosanitary and GMO analysis

**The analysis are carried out according to EPPO Plant Quarantine Pests Detection Protocols.*

Harmful organisms that are subject to quarantine that are listed in Annex-1 and Annex-2 of Regulation of Plant Quarantine at the web page of Republic of Turkey Ministry of Food ,Agriculture and Livestock.

GMO LABORATORY

- After all the tests and reports are completed for the seed to be imported, a conformity letter will be arranged by Inspectors.

If seeds are **not suitable for entry, an **unconformity letter** will be arranged by inspectors. Later on, a notification form will be sent to ministry by inspectors to inform the details of interception of consignment or harmful organism.*

- **Conformity letter** is addressed to the company , to be leaded to Custom Office Directorate .

- Provincial Directorates of Agriculture Ministry are authorised to give seed export permission. Procedures for export of seeds imported with export purpose are administered by BUGEM

Foundations Authorized to seed export.

- Organisations and real persons and public organisations having tax number who provide complete documents may be allowed to export seed.

REQUIRED DOCUMENTS:

- Application Petition: Seed Export Application Form will be filled by the individuals or organizations requesting export. In the petition, export destination country and organization, the type of seed, species, unit price, total monetary value and customs gate to be exported should be stated.
- Seed Export Form (4 coppies)
- Seed Health Certificate *-if demanded.*

- Export permit letter is arranged by Provincial Directory of Ministries .
- Provincial Directorates, issue Export Statistics Information Sheets and send to BÜGEM on a quarterly basis.

Documents required for Quarantine Directorates

1. Application Form
2. Export permit letter, given by Provincial Directorate of Ministry
3. Invoice (Photocopy)

SEED EXPORTS

SEED EXPORT APPLICATION FORM

I would like to export seeds of following species, variety, quantity, and nature. I hereby request issuance of relevant export permit.
