

D-8 ORGANIZATION FOR ECONOMIC COOPERATION

Media Report

JANUARY-DECEMBER 2020

PREPARED BY
Mr. Ilham Uludag
Research Analyst and
Press Secretary

APPROVED BY
Ambassador Dato'Ku Jaafar Ku Shaari
D-8 Secretary-General

Executive Summary

The D-8 Organization for Economic Cooperation celebrated its 23rd anniversary last June and is about to be an Organization that has existed for almost a quarter of a century. During this time under review, its name did not gain currency around the world as one would expect. However, it has started to make waves and it is now a household name and its works have started to gain more attention around the world. The crafty utilization of awareness and visibility tools helped the Organization to make itself popular across the globe.

Although the exposure of D-8 Organization has decreased to a certain extent due to the COVID-19 pandemic that turned into a global health crisis, the level of awareness and recognition of the D-8 Organization in the year 2020 has increased considerably and the Organization has managed to find for itself a place on the global awareness map. It should be pointed out that the COVID-19 pandemic has shown us that not every plan can play out as envisaged and things can always go in different direction. As the D-8 Organization, we will continue our work to further increase our visibility without interruption no matter how difficult the conditions are. We also hope that the D-8 Organization will reach the level of visibility it deserves, going forward.

In this media report, the activities carried out by the D-8 Organization for Economic Cooperation in the year 2020 in media and the data related to them are provided for analysis. It is believed that this data will provide a perceptive glance at the activities of the D-8 Organization in 2020.

What D-8 is doing for visibility

Nowadays there are many social media platforms and various media tools. All these platforms and tools make a great contribution to the organizations to reach their existing and potential followers. All of them have different styles and target groups. And now all these platforms and tools are actively used not only by commercial organizations, but also by non-profit, international and diplomatic institutions and organizations. In this context, as the D-8 Organization, we also have been using these platforms and tools in order to reach people in the D-8 Countries and in different parts of the world in order to disseminate information about the activities of the D-8 Organization and, most importantly, to strengthen the

bond between us. As D-8 Organization, we are actively involved in various social media platforms. However, we have close relations with media institutions and organizations and they follow and publish our activities. As D-8, we can say that the awareness and visibility level of the D-8 Organization has reached higher levels, especially in the last three years.

Social Media

The D-8 actively takes place on six different social media platforms and shares its activities and events on them to reach its followers and audience.

The D-8 Organization is more active on Twitter and Facebook platforms and has more followers compared to other social media platforms.

In addition to Twitter and Facebook, D-8 also uses Instagram, Youtube, LinkedIn and Flickr platforms to reach its followers in D-8 Member States and other parts of the world.
