CONCLUSIONS

- Turkish feed industry has a great growth potential,
- Turkish feed industry is an open market for feed material trade,
- New investments for livestock production are increasing,
- All the legislations for feed has been harmonised with EU.

A large herd of brown and white cows is grazing in a lush green field. The cows are scattered across the landscape, with some in the foreground and others in the background. The text "THANK YOU" is overlaid in the center of the image.

THANK YOU
